PROJECTS [Live Links](#)

NotesHub: The Note-Taking App | *React, Redux Toolkit, TailwindCSS, Vite* | [Live Demo](#) 2025

- Smart Note Management: Capture quick notes or detailed plans effortlessly with a clean, intuitive interface.
- Instant Notifications: Get real-time feedback with toast alerts for key actions.
- Clean UI & Smooth Navigation: Styled with TailwindCSS and powered by React Router for a seamless experience.
- Fast & Efficient: Vite ensures quick load times and a smooth development workflow.

FusionTalk: The ChatApp | *XML, Java, Firebase, Android SDK* | [Github Repo](#) 2024

- Secure User Authentication and Real-Time Messaging: The Android chat app ensures safe user logins with robust authentication protocols, allowing users to send and receive messages instantly (real-time) while keeping their data secure.
- Content Moderation: Detects and blocks harmful content to maintain a safe environment.
- Status Update Feature: User can update their status.

Bank Management System | *Java, JDBC, Swing, MySQL* | [Github Repo](#) 2024

- User Account Management: The application allows users to sign up for new accounts, providing a seamless registration process. Additionally, users can securely change their PIN, ensuring account protection and privacy.
- Balance Check: Enables users to view their current account balance.
- Banking Operations: Simulates various banking tasks, providing a desktop interface for users to interact with their accounts.

CERTIFICATES

- Certificate of Summer Internship.
- Certificate of Industrial Training.
- Certificate in Android with Core Java.
- Java Project Bootcamp.
- Certificate in Network Management and Web Development with Ethical Hacking.
- Core Java Programming.
